

TITE-REACH EXTENSION WRENCH

Tite-Reach extension wrenches have been designed to make your job easier in those hard to reach spaces. These lightweight but durable professional grade extension wrenches are ideal for accessing hard to reach nuts and bolts, or when ratcheting is limited in a confined space.

Requiring zero degrees of swing angle to operate, tightening and unscrewing bolts can now be done in a fraction of the time, saving you time and effort!

Able to work with regular 1/4" and 3/8" drive ratchets and impact guns, Tite-Reach extension wrenches are a handy and strong solution for hard to reach bolts. With a 1-to-1 gear ratio, the wrenches turn the nut or bolt as quickly as you can spin your ratchet or pull the trigger on your impact gun.

Designed with comfort and convenience in mind, Tite-Reach extension wrenches are easy to handle and can be used with your own sockets and socket wrenches and offer the versatility to work from either side. The 3/8" Tite-Reach wrench will extend your reach away from what you are working on by 10".

- Turns nuts and bolts with ZERO degree of arc
- Lightweight but durable die cast housing
- Tough powder coated finish
- Chrome vanadium sprockets
- Low friction UHMW (ultra high molecular weight) polyethylene bushings with 1 to 1 drive ratio
- Use of an impact wrench not recommended with 385114

385138	3/8"	125 ft./lbs	300mm (L) x 254mm centre to centre
385114*	1/4"	40 ft./lbs	283mm (L) x 250mm centre to centre
385112	1/2", includes 3/8" drive adaptor	225 ft./lbs	423mm (L) x 360mm centre to centre

*Do not use impact wrench with this model

TITE-REACH LOW PROFILE SOCKET SET

The 3/8" drive low profile socket set takes the Tite-Reach extension wrench into tighter places than ever before. These sockets have been designed to be up to 50% shorter than a standard socket size and contain an internal magnet to hold the nut or bolt in place.

* Adaptors not included.

EXTEND-O-RATCHET HANDLE

These ratchet handles are heavy duty professional tools designed for the toughest high torque industrial applications.

A strong 48 teeth reversible ratchet makes accessibility to fasteners much easier, requiring a smaller ratcheting angle. The finish is in satin chrome to always maintain a clean appearance.
